ALFORD SQUASH CLUB

Squash / Racketball is one of the best forms of exercise and competition available and the Committee is preparing for you to join us, whether you have played before or want to try for the first time. As soon as government regulations allow we will provide Club Night evenings, Knockout competitions and, for those interested, the possibility of a sport development programme.

Following a generous grant from the Government we are currently undertaking major refurbishment of the clubhouse and courts. We plan to increase the grant with a Lottery (Awards for all) match funding bid to Sport England.

Alford Squash Club was formed by local enthusiasts in 1978 and the Committee want to ensure the game continues in strength, so sport development is a core action. Since its opening Alford Squash Club has provided many training and development programmes for our members, children, and now grandchildren. We have also provided sport development programmes to most local schools. Our Coach Ben Irving has been DBS checked in support of our Safeguarding Policy.

More information can be found on our website at <http://www.alfordsquashclub.co.uk/>, our Facebook link and the *Contact Us* page provides further details. We will publish a further update when the Club has a re-opening date.
